However, any single belief, intention, or behavior may have little or no relation to attitude. Similarly, there is no reason to expect that any specific belief will be related to any specific intention or behavior. In con trast, it is expected that a given intention will, under most circumstances, be highly related to the corresponding behavior.

Division of Engineering and Applied Science, California Institute of ...

01-07-2022 · behavior become more apparent at lower temperatures. Measurements have also been per-formed at microwave frequencies from which the eld-dependent energy relaxation time has been inferred [50]. Various theoretical and numerical methods have been employed to interpret these mea-surements in terms of microscopic transport processes [31,45,60,61].

Drugs, Brains, and Behavior The Science of Addiction

Scientists study the effects that drugs have on the brain and on people’s behavior. They use this information to develop programs for preventing drug abuse and for helping people recover from addiction. Further research helps transfer these ideas into practice in our communities. 3 INTRODUCTION
