Begin met het waarom Simon Sinek 2012-03-08 Simon Sinek laat in 'Begin met het Waarom' zien dat organisaties en leiders die zich richten op het Waarom van hun bedrijf succesvoller, invloedrijker en innovatiever zijn. Leiderschapsstijlen kunnen verschillen, maar alle grote, inspirerende leiders hebben één ding met elkaar gemeen: ze weten dondersgoed waarom ze doen wat ze doen. Toch sneeuwt bij veel bedrijven het Waarom nogal eens onder in de hectiek van de dag. 'Begin met het Waarom' helpt je om het Waarom weer centraal te stellen en zo beter en authentieker leiding te geven en je omgeving te inspireren. Met vele voorbeelden uit de praktijk toont Sinek aan dat het werkt. Dit boek is gebaseerd op de

ideeën uit zijn TEDX-talk over leiderschap, waarmee hij wereldwijd de aandacht trok.

Consumer Reports Buying Guide Consumer Reports 2007-11 Rates consumer products from stereos to food processors **The Philosopher's Stone for Sustainability** Yoshiki Shimomura 2012-09-26 Industrial Product-Service Systems (IPS2), which is defined as "an integrated industrial product and service offering that delivers value in use," has expanded rapidly over the last decade. IPS2 has allowed us to achieve both high added value and high productivity and has enriched our QOL by improving the performance of products and services. We are now struggling with many awkward issues related to sustainability, but IPS2 is expected to be the "philosopher's stone" for solving these issues. Following the pattern of conferences held in Cranfield in 2009, Linköping in 2010, and Braunschweig in 2011, the fourth International CIRP Conference on Industrial Product-Service Systems, held on November 8-9, 2012, in Tokyo, will cover various aspects of IPS2. Topics planned for this year's conference reflect the latest IPS2 information in both the natural sciences and humanities and include case studies from various industries. IPS2 is still a relatively new field, so it is important to keep track of the entire context in order to promote more cross-sectional cooperation between multimodal fields and disciplines. The fourth International CIRP Conference on Industrial Product-Service Systems will serve as a vital platform for such collaborations and the discussion of new scientific ideas.
