2020 "As our eyes are drawn upward to the skyline of great

remember that these

impressive constructions are able to reach such heights only

because their foundations are strong. In much the same way,

being successful in the

In this edition, as before, the Williams team has revised the text with a keen eye toward the principle of helping students

establish the foundation they will need for future success in

business. However, through new coverage of International

Financial Reporting Standards and a revised globalization

chapter, the Williams book also introduces students to larger

themes and evolving concerns. This dual emphasis allows

students to keep their eyes trained upward even as they

become solidly grounded in accounting fundamentals"--
